

Sta-Rite Great-White

Short Description

Recommended for Vinyl and Fibre-glass Pools

Description

Recommended for Vinyl and Fibre-glass Pools

Sta-Rites Patented technology was first incorporated with the Great White in-ground cleaner. The unique bristle drive and oscillating vortex design effectively scrubs and vacuums away large and small debris.

Well suited for flat, dish, incline, and hopper-bottom pools, the GW9500 clears an impressive 38cm path and powerfully cleans gunite, fiberglass, vinyl and other specialty surfaces. The GW9500's unique turning mechanism allows the GW9500 to cover the entire pool area and escape from even the most difficult areas.
